

AVISHKAR SOLAT

Pune, Maharashtra, India | avisolat18@gmail.com | linkedin.com/in/ccoolavi | ccoolavi.github.io/Avishkar

PROFESSIONAL SUMMARY

- Results-oriented professional with 7+ years of experience across business operations, analytics, customer success support, and AI-enabled workflow improvement.
- Experienced in translating business needs into structured reporting, streamlined workflows, operational controls, and stakeholder-ready insights that improve decision-making and execution.
- Strong background in KPI tracking, business intelligence, documentation, process improvement, SQL, Power BI, Excel, and AI-assisted systems for workflow acceleration.

CORE SKILLS

- Business analysis, business operations, customer success support, stakeholder management, workflow automation, root cause analysis, KPI tracking, and process implementation.
- SQL, Power BI, Excel, Python, JavaScript, Google Sheets, SharePoint, Salesforce, MS Dynamics, Workday, Git, and documentation tools.
- Generative AI, RAG, MCP, Ollama, LM Studio, AI-assisted workflows, reporting governance, operational controls, and cross-functional coordination.
- Documentation, SOP creation, reporting structures, dashboarding, data management, analytical thinking, and effective communication.

PROFESSIONAL EXPERIENCE

Business Operations Manager | Sujata Fashions | Pune, Maharashtra, India | 04/2026 - Present

- Lead business operations across production, billing, inventory, website operations, vendor coordination, workflow governance, and strategic planning in a high-ownership environment.
- Manage cross-functional execution by aligning priorities across internal teams, vendors, and partners while improving operational visibility and execution consistency.
- Oversee reporting structures, process governance, and operational documentation to support continuity, accountability, and decision-making.
- Support business planning, execution tracking, and day-to-day operational management in a fast-paced environment.

Operations Analyst & AI Systems Lead | Sujata Fashions | Pune, Maharashtra, India | 08/2024 - 03/2026

- Designed and implemented automated billing, inventory, reporting, and operational control workflows that reduced manual processing effort by 70% and improved execution reliability, audit readiness, and business visibility.
- Introduced AI-assisted workflows and local AI systems using Generative AI, RAG, MCP, Ollama, and LM Studio to support knowledge retrieval, execution support, testing, process acceleration, and turnaround improvement.
- Built and maintained internal trackers, reporting structures, documentation, and operating workflows to improve coordination among internal and external stakeholders.
- Created process documentation, SOPs, knowledge assets, workflow maps, implementation notes, and operational checklists to support governance, onboarding, and operational continuity.
- Supported architecture planning and deployment management for an on-premise LMS solution on a Linux server environment.
- Assisted with debugging, environment validation, service coordination, release readiness, and operational reviews across the deployment stack.
- Worked around deployment concepts including Ubuntu Server, Nginx, Node.js, SQLite, PM2 or systemd supervision, UFW-based firewall controls, SSL/TLS readiness, and backup planning.
- Contributed to LMS planning around content structure, access control logic, session flow, media storage, auditability, and server-side workflow reliability.

Customer Success Associate (Analytics) | NielsenIQ | Pune, Maharashtra, India | 02/2022 - 08/2024

- Owned end-to-end delivery of multi-market retail analytics and customer success reporting for international FMCG accounts across North America, Europe, and APAC.
- Maintained 100% on-time delivery and 95%+ CSAT while supporting multi-million-dollar annual client portfolios under tight timelines.
- Built executive Power BI dashboards, recurring reports, KPI trackers, and QBR-ready analytical outputs to support business reviews, decision-making, and stakeholder communication.
- Worked closely with clients, delivery teams, engineering teams, and business stakeholders to align requirements, data definitions, reporting outputs, and issue resolution.
- Validated analytics outputs against stakeholder context, business priorities, reporting goals, and business logic before final delivery.
- Used SQL, Excel, Power BI, SharePoint, and enterprise workflow tools to support analytics delivery, reporting coordination, knowledge sharing, and process tracking.
- Identified reporting gaps, usability issues, and workflow bottlenecks, and partnered with engineering and delivery teams to improve process efficiency and reporting reliability.

- Supported documentation, reporting governance, process updates, collaboration workflows, and cross-functional coordination in a matrixed global environment.

Project Management Intern | Develop Train Maintain LLP | Pune, Maharashtra, India | 09/2021 - 10/2021

- Supported research and development of energy-efficient engineering solutions through design analysis, documentation, structured reporting, and technical coordination.
- Created CAD models and technical drawings and produced supporting documentation for prototyping and testing.
- Assisted in project planning and scheduling to streamline workflow and improve team collaboration.
- Coordinated communication between stakeholders and helped maintain alignment on project objectives.
- Developed documentation processes for project tracking and improved accessibility of information for team members.

Model-Based Design Intern | Decibels Lab | Pimpri-Chinchwad, Maharashtra, India | 06/2021 - 07/2021

- Developed and validated mathematical models for mechanical systems using MATLAB/Simulink in a structured project environment.
- Produced technical documentation and supported simulation accuracy and performance improvement efforts.

Executive Assistant | Sujata Fashions | Pune, India | 09/2018 - 06/2021

- Managed communication between departments, streamlined information flow, and improved coordination across teams.
- Prepared reports and presentations to support strategic decision-making for senior management.
- Developed and maintained filing systems that improved document retrieval and organization.
- Coordinated executive schedules and supported day-to-day operational efficiency.

EDUCATION

- B.E. Mechanical Engineering, D. Y. Patil College of Engineering & Technology, Pimpri | 01/2022 | CGPA: 9.47/10 | 88.64%
- 12th Science, Nav Maharashtra Jr. College, Pimpri | 01/2018 | 77.54%
- 10th, The Good Samaritan School, Wakad | 03/2016 | 83%

CERTIFICATION

- Google Data Analytics Professional Certificate.

TOOLS

- Power BI, SQL, Python, JavaScript, Excel, Google Analytics, SharePoint, Salesforce, MS Dynamics, Workday, Generative AI, RAG, MCP, Ollama, LM Studio, CAD, MATLAB/Simulink, Ubuntu Server, Nginx, Node.js, SQLite, PM2, systemd, UFW, Linux, Google Sheets, Git, documentation tools, and workflow tools.

ADDITIONAL INFORMATION

- Strong interest in analytics, operations, AI-enabled workflows, product support, internal tools, and business systems.
- Comfortable in stakeholder-heavy, fast-paced, and cross-functional environments.
- Open to roles involving business analysis, product operations, customer insights, strategy and operations, AI systems, enablement, and operational transformation.
