Pune, Maharashtra, India | avisolat18@gmail.com | linkedin.com/in/ccoolavi

Product Operations, AI Systems, and Analytics professional with 4+ years of experience across global client delivery, workflow automation, reporting, and business operations transformation. Strong track record in building scalable systems, improving execution quality, and bridging data, product, and operations across cross-functional teams.

Core Skills

Product Operations; Business Operations; Process Automation; Analytics Delivery; Stakeholder Management; Power BI; SQL; Python; JavaScript; Generative AI; MCP; Ollama; LM Studio; Workflow Documentation; Inventory & Billing Systems; Revenue Operations; Retail Analytics

Professional Experience

Business Operations Manager & AI Systems Lead | Sujata Fashions

Aug 2024 - Present | Pune City

- Led end-to-end business operations transformation across production, inventory, billing, vendor coordination, and strategic planning for a family-owned fashion business.
- Designed and implemented automated billing and inventory systems using Python and JavaScript, reducing manual processing time by 70%.
- Set up local AI tools including Ollama, LM Studio, and MCP-based applications to support workflow automation, code generation, testing, and deployment.
- Built and maintained a business website and operational workflows in Python, JavaScript, and Linux-based environments.
- Managed vendor relationships, photo-shoot coordination, and cross-functional execution with zero external team dependency.

International Customer Success Analytics | NielsenIQ

Feb 2022 - Aug 2024 | Pune District

- Owned end-to-end delivery of multi-market retail analytics for international FMCG accounts across North America, Europe, and Asia-Pacific.
- Built executive Power BI dashboards that translated complex retail datasets into decision-ready insights for stakeholders and sales QBRs.
- Drove automation in analytics delivery workflows by identifying bottlenecks and collaborating with engineering teams to reduce processing overhead.
- Maintained 100% on-time delivery and 95+ CSAT scores on contracts worth several million dollars annually.
- Served as the bridge between clients, GCoE delivery teams, and engineering to align technical output with business expectations.

Project Intern | Develop Train Maintain LLP

Sep 2021 - Oct 2021 | Pune, Maharashtra, India

- Supported research and development of energy-efficient solutions and design enhancements.
- Created 3D models and engineering drawings using CAD tools and assisted prototyping, testing, and design analysis.
- Contributed to project documentation and reporting for technical stakeholders.

Model-Based Design Intern | Mechanical Systems | Decibels Lab

Jun 2021 - Jul 2021 | Pune / Pimpri-Chinchwad Area

- Developed and validated mathematical models for mechanical systems using MATLAB/Simulink.
- Worked on model-based design, simulation, performance optimization, and documentation for multidisciplinary projects.

Education & Certification

B.E., Mechanical
Engineering

D. Y. Patil College of Engineering & Technology, Pimpri | 2018 - 2022

12th, ScienceNav Maharashtra Jr College Pimpri | 2016 - 2018

Certification

Google Data Analytics Professional Certificate

Selected Tools

Power BI, SQL, Python, JavaScript, Excel, Google Analytics, Generative AI, RAG, MCP, Ollama, LM Studio, CAD, MATLAB/Simulink
